

**Arkansas State Board of Public Accountancy**  
**July-August 2005 Score Release**

**The Arkansas State Board of Public Accountancy released the early score notices for the July-August 2005 testing window on September 7, 2005. The Arkansas State Board of Public Accountancy has no control over what scores are released by the AICPA. It is possible to have tested early in July but still not receive those results in the first release.**

**Please be advised that the exam is graded on a section-by-section basis and the sections are graded in no particular order, a candidate may receive a score notice for an exam section taken in the second month of the testing window before receiving a score notice for an exam section taken in the first month of the testing window.**

**Candidates affected by the hurricane will be testing until September 10, 2005. Therefore we do not have a definite date for the release of the remaining scores. Test scores will be mailed by the Board as soon as they are received, verified, and processed. There are quality control standards that must be met at the Board office before the scores can be mailed. Candidates should not call the Board office inquiring about their grades unless three months have elapsed from the date of taking the examination.**

**Candidates who wish to retake an exam section(s) in the October-November 2005 testing window should be able to do so if an application and required materials are submitted shortly after scores are received.**
